

USED TOOLS & EQUIPMENT FOR SALE

You can buy used equipment from Bunce Rental with a high level of confidence. The product lines we handle are selected for their durability under the rigors of rental use. Our rental units are inspected, cleaned and serviced before each rental. From a maintenance standpoint, our rental units receive more attention than privately owned equipment.

Units listed are active in our rental fleet so prices, hours and condition are subject to change. We do our best to keep the listings in this section current and up-to-date. Bunce Rental Inc. is not responsible for typographical errors which may have escaped our attention. As a general rule, our used equipment is sold as is, with no warranty, and all sales are final. Prices listed do not include the applicable Washington State sales tax.

Our inventory of Used Equipment changes daily. All listings are subject to prior sale. Please contact your nearest Bunce Rental location (or call 253-472-3347) and we will gladly provide you with the most current information available.
